The Tek-HR 2.0 Hand Cleaning System.

Superior. Steadfast. Sustainable.

Leading producers from glass and security laminations to flexible PCBs trust Teknek contact cleaning systems for the effective and reliable removal of contaminants from their high-value production processes.

The Tek-HR 2.0 is the first hand-cleaning tool that successfully combines industry leading cleaning performance with maximum operator comfort based on contemporary ergonomics and systems thinking.

High performance, long lasting, easy to use and kind to the environment the Tek-HR 2.0 can help eliminate single use plastics from high-quality production processes and is the world's most sustainable choice in hand cleaning.

Rollers are available as 150mm (6") and 300mm (12").
