

Sparkle your Life with MaraJet DI-LSX Silver

Lift Digital Printing to a new level with MaraJet DI-LSX Silver! Hundreds of different metallic shades can be created in combination with standard CMYK inks. Stand out from the crowd and enjoy the attention!

Applications

MaraJet DI-LSX Silver is excellently suited for Roland printers.

The Silver is suited for substrates like:

- different qualities of PVC self-adhesive foils (monomeric, polymeric and cast PVC films)
- other PVC coated materials and tarpaulins
- textiles
- suitable papers

Thanks to the high-quality pigmentation, a high metallic gloss is achieved at regular print modes.

Just use the silver configuration provided by your printer to enhance your next prints with metallic effects.

For further information please refer to the Technical Data Sheet on www.marabu-inks.com

Your Benefits:

Hundreds of Metallic Effects

- Silver-, Gold-, Bronze-, or other effects can easily be reproduced with Color Logic

Excellent compatibility with newest printer technology

- Fully compatible with original parts
- Ink change-over without prior flushing
